PROFILE

Artificial Intelligence and Data Science graduate with experience in machine learning, data analysis, software development, and academic research. Research Assistant contributing to manuscript preparation, publication workflows, and interdisciplinary research. Published conference research in IEEE Xplore and presented research at international conferences. Skilled in Python, Java, SQL, machine learning, computer vision, and data visualization, with research exposure spanning climate analytics, remote sensing, anomaly detection, and interpretable AI.

EDUCATION

B.Tech in Artificial Intelligence and Data Science	2026
Dhaanish Ahmed College of Engineering, Chennai	CGPA: 8.39/10
Higher Secondary Education	2022
Technical Higher Secondary School (IHRD), Perinthalmanna	86.25%
SSLC	2020
Government Higher Secondary School, Cherpulassery	93.33%

EXPERIENCE

Research Assistant – R&D Department, Production Team	May 2025 – Present
Dhaanish Ahmed College of Engineering	Chennai, India
- Support research manuscript formatting, technical checking, reference verification, and document preparation. - Assist with citation and reference linking while maintaining consistency across research manuscripts. - Contribute to research documentation, manuscript revision, and publication preparation workflows.	
Python & Java Development Intern	Feb 2025 – Mar 2025
Tech Octanet Services Pvt. Ltd.	Internship
Developed applications using Python and Java while applying object-oriented programming and problem-solving concepts.	
Artificial Intelligence Intern	Feb 2024 – Mar 2024
CodSoft	Internship
Worked on Artificial Intelligence and Machine Learning projects using Python and computer vision concepts.	

RESEARCH, PUBLICATIONS & CONFERENCES

IEEE International Conference Publication
Pricing in Silence: Modeling Latent Customer Dissatisfaction Through Behavioral Inaction Patterns for Proactive Churn Management
IEEE International Conference on Emerging Trends in Information, Communication & Systems (ICETICS 2026)
Conference: ICETICS 2026 Venue: Bansal Institute of Science and Technology, Bhopal

International Conference Publication
Self-Calibrating Hybrid Bayesian-Deep Learning Framework for Long-Horizon Climate Risk Prediction in Renewable Energy Infrastructure
CMSS 2026, Malaysia
Conference: CMSS 2026 Location: Malaysia
Status: Published
[View CMSS 2026 Publication](#)

Research Contributions
Contributing to multiple journal and conference manuscripts across Artificial Intelligence, climate analytics, healthcare AI, cybersecurity, anomaly detection, computer vision, and interpretable machine learning, with multiple manuscripts currently under review.

SELECTED PROJECTS

Image Fusion for Improved Situational Awareness in Remote Sensing Python, Remote Sensing, Machine Learning
Developed an image fusion system combining Electro-Optical (EO) and Synthetic Aperture Radar (SAR) imagery to improve situational awareness. Applied image processing and machine learning techniques and evaluated fusion performance using PSNR and SSIM metrics.

Face Recognition using OpenCV

Python, OpenCV

Developed a real-time face recognition system using Haar Cascade for face detection and LBPH Face Recognizer for facial identification, supporting dataset generation, model training, and webcam-based recognition.

Car Sales Prediction using Machine Learning

Python, Machine Learning, Data Visualization

Built a regression-based machine learning model for car sales prediction. Performed data analysis, visualization, and regression modelling to identify sales trends and support business prediction.

Breast Cancer Classification using Machine Learning

Python, Scikit-learn, Machine Learning

Developed a classification model to identify breast cancer tumors as malignant or benign. Performed data preprocessing, exploratory data analysis, and model evaluation using accuracy metrics.

TECHNICAL SKILLS

Programming: Python, Java, SQL, C, C++, R

AI & Data Science: Machine Learning, Deep Learning, Data Analysis, Data Preprocessing, Exploratory Data Analysis

Libraries: Scikit-learn, TensorFlow, OpenCV, Pandas, NumPy, Matplotlib

Databases: MySQL, MongoDB

Tools: Git, GitHub, Jupyter Notebook, Google Colab, VS Code, Power BI, Microsoft Excel

HONORS & ACHIEVEMENTS

- **Outstanding Student of the Year – 2026**, Dhaanish Ahmed College of Engineering.
- **Honoured for Achievement in German Language Certification – 2025.**
- **Best Student of the Year – Excellence in German – 2024.**
- **Outstanding Student of the Year – 2024.**

SELECTED CERTIFICATIONS

Goethe-Zertifikat A1 – Goethe-Institut • SQL (Basic) – HackerRank • Machine Learning – Simplilearn

Data Analysis with R Programming – Google • Introduction to Programming Using Java – NPTEL • Microsoft Power BI

LANGUAGES

Malayalam (Native) • English (Professional) • German (A2) • Hindi • Tamil
